

To Whom it May Concern,

North Pacific Erectors (NPE) has bid and successfully been awarded a variety of work at Coeur Alaska's Kensington remote minesite located 45 miles north of Juneau, Alaska.

We have found them to work safely, with no lost time accidents.

Their field employees and site supervision was always cooperative, proactive to changes and their workmanship was excellent. Problem solving and schedule changes/work around plans with minimal impacts to cost were an asset to the job.

Their Home office management support, expediting, material logistics was first class. They are a very proactive and can do spirited, with a win, win motto.

Any change orders/extra work were handled timely and costs were more than fair with minimal negotiations necessary.

In summary, we highly recommend NPE for any of your planned, upcoming work. We plan on utilizing them for our future work needs also.

Feel free to contact the undersigned with any questions.

Regards,

Jeff Stacy
